

Peach City Men's Shed Association (PCMSA)

Core Values

The Peach City Men's Shed Association is committed to advancing the health and well-being of men by providing a welcoming, inclusive, and supportive community space. Our Core Values guide how we interact, work together, and serve our community.

1. Respect

We treat all members, volunteers, partners, and guests with dignity and consideration. We foster a safe environment free from harassment, discrimination, or abuse.

2. Inclusion & Belonging

We welcome people of all backgrounds, ages, abilities, and life experiences. Every member deserves to feel valued, heard, and accepted.

3. Camaraderie

We build meaningful friendships through shared activities, mutual support, and fellowship. We recognize that connection and companionship are vital to well-being.

4. Shared Purpose

We promote hands-on activities, skill sharing, creativity, and lifelong learning. We work together on projects that benefit both members and the broader community.

5. Safety & Responsibility

We prioritize the physical and emotional safety of our members. We follow all workshop, facility, and organizational safety guidelines. Members participate responsibly and free from impairment.

6. Confidentiality & Trust

Personal information and stories shared within the Shed remain confidential. Trust is fundamental to maintaining a supportive and open environment.

7. Community Contribution

We strive to give back to the Penticton community through service projects, partnerships, and positive engagement. We aim to be a respectful and valued community partner.

Together, these values create a space where men can connect, create, and contribute — improving individual well-being and strengthening our community.
